

CT-12 Eco-Tec+

PORTABLE AIR CONDITIONER

ClimaTemp Portables is the go-to source for the newest climate control products. For 2023, we are introducing our new CT-12 ECO-TEC+ spot cooler. This unit will be replacing our standard CT-12 spot cooler and will include new R-32 refrigerant and air purification (NPBI) technology upgrades. The CT-12 ECO-TEC+ is the first available commercial spot cooler on the market that features R-32 refrigerant that complies with the California Air Resource Board (CARB) Regulation and EPA's (Significant New Alternatives Policy) SNAP Program.

optional HEPA filtration

New for 2023:

- New R32 Refrigerant. (CARB) and EPA SNAP compliant with a Global Warming Potential (GWP) of 675.
- Cold Plasma Technology (NPBI) Needlepoint Bipolar Ionization.

Features

- Operates on standard 115V power at only 12 amps.
- Provides 12,000 Btu/h of cold air... maximum spot cooling to quickly cool equipment, spaces and people.
- Auto full condensate bucket shut off and alarm.
- 19" W x 23" D x 40.3" H

“Go Green with ClimaTemp' Eco-Friendly R-32 Refrigerant!”
