

MOB-100

Mobile Cool™

Air Conditioner

Specifically designed for large-area cooling applications, the MOB-100 is a high-performance portable unit capable of handling up to 126,000 BTU/h. Available in either skid or trailer mounts, the unit can supplement an HVAC system during routine shutdowns or provide cost-effective emergency backup cooling.

Applications

- Special Events
- Process Cooling
- Plant Shut-Downs
- Supplemental Cooling
- Emergency Central System Back-up
- HVAC Retrofits and Systems Upgrades
